

Compliance that never clocks out.

TWO LANTERNS
VENTURE CAPITAL

The only AI GRC platform and human experts that drive real compliance outcomes - from getting compliant to staying compliant and building trust across every framework. We replace fragmented testing with continuous control visibility, automating evidence, controls, and risk management.

Award-winning compliance

80+ frameworks supported

+ Custom frameworks

Yaron Lavi, CTO
deel.

Scytale streamlined our compliance processes with their expert-driven technology. They shared valuable insights about our security systems so we can better protect our customers' data.

Your full-scope trust and compliance stack.

From audit-readiness to certification and everything in between, we're your one AI-powered solution for everything compliance.

Why choose Scytale?

1

Automation-first

Scytale accelerates your compliance with practical AI-powered functionalities and smart automation features that are easy to navigate.

2

Dedicated, in-house expert services

Our hybrid model of technology + human experts has always made it feel like you have an in-house security team, with hands-on guidance through each and every step.

3

Fully customizable

We don't believe in a 'one size fits all' approach. Our platform and expert services are tailored to your specific needs, and our flexible startup packages also reflect this.

4

No need for additional vendors

We really have everything you need (and nothing you don't) to get and stay compliant, including pen testing and AI security questionnaires, enabling simple security and compliance management.

60%

lower audit costs by reducing external audit time.

88%

faster to get audit-ready.

52%

Average growth in sales pipeline secured for customers.

Build security & compliance from day one.
